M&A Analyst Intern | Corporate Finance & Valuation

Available from February 2027 · Brussels (on-site)

PROFILE

Master's-level student (Grande École programme, final year) at ICN Business School, specialising in Corporate Finance, seeking an M&A Analyst internship. Built a full valuation of Eiffage from scratch: sum-of-the-parts DCF with block-specific WACC (CAPM, Hamada relevered betas), cross-checked against trading multiples and sensitivity analysis. Trained in valuation (18/20), group consolidation (16/20), IFRS and financial engineering. Work-study experience in management control and internal audit: rigorous with financial statements and data, used to delivering under deadlines in a team.

EDUCATION

ICN Business School, Grande École Programme (Master's level), Corporate Finance 2024 - 2027

Coursework: Business Valuation 18/20, Group Consolidation 16/20, Financial Analysis, Advanced IFRS, M&A, Financial Engineering (CAPM, Hamada, equity risk premium, EV-to-equity bridge)

Preparatory classes (CPGE), Economics & Advanced Mathematics 2022-2024

M&A VALUATION PROJECT

Valuation case: Eiffage (€25bn revenue, listed French infrastructure group) stella-yathe.github.io/Portfolio-Technique

- Sector and strategic analysis; five-year financial statement analysis (margins, leverage, free cash flow) from annual reports.
- Sum-of-the-parts DCF across three blocks (Works, APRR motorways, other concessions) with block-specific WACC of 5.6% to 8.0% (CAPM, Hamada), plus EV-to-equity bridge.
- Cross-check with peer trading multiples (median EV/EBITDA 6.1x), football field and WACC/growth sensitivity grid: €178 per share vs. €98.7 market price; €147 in the prudent case (academic exercise).

PROFESSIONAL EXPERIENCE

Assistant Management Controller (Work-Study), Drive Medical (French subsidiary of a US group) September 2025 - Present

- Built an Excel/VBA model to track rebate (RFA) contracts and assess order profitability, letting sales teams negotiate while protecting margins.
- Led autonomously a transport cost analysis: accounting data controls, Power Query processing, Power BI reports; identified over €200K of savings levers.
- Analysed inventory valuation (weighted average cost), revenue and margin variances vs. budget and forecast; monthly closings and performance reporting.

Vice-Treasurer & Internal Auditor, ICN Junior Conseil (student consulting firm) December 2025 - Present

- Financial analysis of SME financial statements and strategic recommendations.
- Internal audit across 5 cycles (purchasing, sales, treasury, payroll, tax): account reviews, testing of hundreds of documents, compliance tests; restored compliance of a situation initially rated 20%, and automated invoice generation.
- Accounting on SageActive: entries, matching, bank reconciliations, closing with the chartered accountant.

SKILLS

Finance: Valuation (DCF/SOTP, trading comparables, WACC/CAPM), financial modelling, sector and market analysis, financial statement analysis, consolidation, IFRS, accounting
